Subject: Support for Sherbrooke's bid to host and organize
the 2013 Canada Summer Games

Hosting the Canada Summer Games would be a significant feather in our community's cap. For this dream to come true, it is critical that the key players in our area rally together and work hand-in-hand.

Residents of Sherbrooke and the surrounding area have a lot to gain from such a major event, both on an organizational and a personal level. As a business, we would hope to be a stakeholder in this important venture, not only for our own benefit but more importantly to be involved, in a tangible way, in transforming this possibility into reality.

Our organization is active in the Sherbrooke region and those involved are passionate about what they do. This is what motivates us to excel and be competitive in our field. In our eyes, obtaining the 2013 Canada Summer Games would be a unique occasion to showcase our talents and our know-how.

We are thus pleased to formally convey our support to the committees in charge of Sherbrooke's bid and rallying the community. You have our full cooperation.

Good luck with the final phases of the process.
